Hagus mirrors on board

Equipped with: Real carbon fiber lower splitter. New 2-piece European spec E-code Projector Headlight available in H7 or HID. Also HID corner lower left and right driving lights with remote control (free pre-installation⁽⁴⁾). Hagus wide view sport mirrors.

Aerodynamic components give you the best of both worlds: Better handling characteristics at high velocity and a personalized look guaranteed to turn heads wherever you drive. This is your chance for a great upgrade.

THE LLTEK / RIEGER CONNECTION: Rieger AG of Europe is a leading supplier of high quality aero components to the demanding European motorsport community. LLTEK worked directly with Rieger stylists to redesign several of their Audi A4 aero components to fit the North American A4/S4 which is dimensionally different than its European counterpart. Since LLTEK aero components can be supplied pre-painted with factory match paint, an average four piece lower aero kit will take approximately three hours or less to install using qualified technicians. The result is a sportier, hi-performance autobahn image which can dramatically improve the driving sensation of your Audi A4/S4. LLTEK's aero packages are a definitive styling upgrade denoting your own unique character.

SPECIAL ANNOUNCEMENT

If you already own or will soon purchase the Rieger RS-Four front bumper upgrade, you can now order the aerodynamically important TYPE RS4S.5 lower lip splitter. Available in genuine carbon fiber or heavy duty fiberglass ready for optional match paint. No Rieger styled car should be without this unique splitter to assist with dynamic handling. (Also looks fantastic!)

Components ordered from LLTEK identified as RS4, RS Four, RS4 Look or RS Four Look are not to be confused with an ultra high performance car model of the A4 (B5) manufactured by Audi AG and sold by Audi Quattro GmbH. Audi, through its qualified overseas dealers, markets this complete car identified by Audi as the RS4. Individual parts for the Audi RS4 car are identified by a part number and not by a name. Audi's RS4 parts from the factory are intended to fit on a widened version of the A4(B5) car. Parts sold by LLTEK fit the narrow body A4/S4 only and are not interchangeable with parts designed to fit on the complete Audi factory car identified as the RS4 car. Note: Audi of America did not import the RS4 complete car into the US nor Canada. LLTEK supplied product identified as RS4, RS Four, RS Four look or RS4 look is identification naming presented by the manufacturer of the part. This information is presented to the customer to ensure there can be no confusion regarding parts sold by LLTEK and the RS4 car sold by Audi AG and its division, Audi Quattro GmbH.

LLTEK Paint: Consider the convenience and practicality of the **LLTEK MATCH PAINT PROGRAM** right out of your box! Match painting is available for all aero components at a very reasonable cost. Save yourself the hassle of getting your new Audi aero parts painted locally. From the box to your car and the road awaits!

KERSCHER

**TYPE KL.5 LIP SPOILER
TYPE SL.5 SPLITTER**

The installation of the German designed Kerscher TYPE KL.5 creates a smooth, integrated and purposeful look. This is an affordable solution to an outstanding upgrade and is easy and manageable to accomplish. A small modification to the lower portion of the existing Audi A4 bumper must be made which normally takes from 30 to 60 minutes depending on skill set. The KL.5 can be shipped by UPS, further reducing the cost of the upgrade.

Zender

Zender stylists are some of the finest in the world. Zender co-designed and manufactures the factory Audi RS4 aero components. The ZL.5 lip spoiler and the companion ZT.5 rear spoiler are manufactured with quality polymers including Purim. Installation of the lip spoiler is stretch and glue on and extremely easy to do. All other Zender components are also installed with TUV glue for quick easy installation. The Zender ZT.5 rear trunk spoiler is beautifully designed to enhance the styling of the Audi A4/S4. Zender's attention to detail for the sedan upper roof spoiler and the Avant upper roof wing truly is a process of blending contemporary styling.

JE DESIGN

- TYPE JL.5 LIP
- TYPE JT.5 TRUNK
- TYPE JE.5EA VALANCE

JE DESIGN is headed by a young, bold and creative designer bringing clean innovative styling to the Audi A4 car. A unique feature of the JE DESIGN front lip spoiler is the ability to fit over the factory fog lamps on years 1999.5-2001. No fog light adapters are needed. Installation of the lip spoiler requires a small modification to the front bumper to allow the new components to slide into place. The JE DESIGN component is the part within the red outline (see picture below). Optional large or small mesh is available as a preinstalled option. This product ships via UPS.

LATE BREAKING NEWS

KERSCHER

8E-LOOK A4B5 STYLING UPGRADE

Kerscher has released a 4-piece styling kit for the 1996-2001 A4 (B5). Inspired by their A48E design (see appropriate section in this catalog), the full front bumper features generous sized air intakes for improved cooling and projects an aggressive technical look. The new Kerscher bumper can be optioned with a stunning carbon fiber lower splitter. The new rear bumper features twin exhaust "pods" with a technical diffuser lower center section. A techno set of side skirts complete the effect. Availability to be confirmed. Please contact LLTEK directly or visit our website (WWW.LLTEK.COM) for more information on these and many other exciting products for your Audi car.
