CARACTERE
 TYPE CTL.8E

A quiet low profile spoiler to accent the A4 trunk. Also, coordinates perfectly with CRS.8E roof spoiler from CARACTERE (page 101). No brake light. Easy fast glue on installation. "Classic model".

CARACTERE
 TYPE CTH.8E

A stylish high level rear trunk spoiler with smooth angled overhangs at each corner. Also coordinates with the new CARACTERE CR.8E roof spoiler. Features an integrated brake light. "Sport model".

JE DESIGN
 TYPE JET3.8E

A 3 piece trick spoiler (center trunk section plus L&R outer ends). Trailing inset section may be painted mat black for additional contrast. Coordinates perfectly with JERS.8E roof spoiler. No light. Glue on.

UBERHAUS
 TYPE UTS.8E

A medium low profile spoiler with an accent detente center section. This spoiler features an edge-to-edge look. Also coordinates perfectly with the URS.8E roof spoiler with matching detente. Glue on. No light.

ZENDER
 TYPE ZTL.8E

Extra low profile spoiler (rests on trunk surface). A subtle and elegant enhancement which complements the factory A4 proportions. Perfect for the enthusiast who appreciates a quiet sleeper look. Glue on.

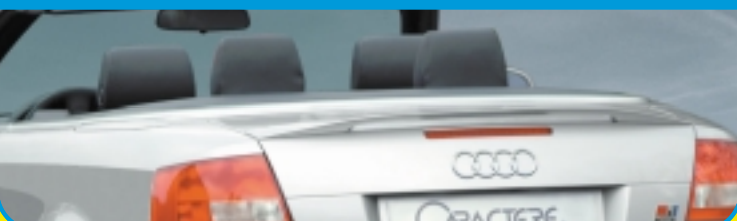

Spoiler also available
in carbon fiber

ZENDER
 TYPE ZTH.8E

A superbly styled high rear spoiler with perfect edge-to-edge containment. Upper angled corners to work with the A4 styling cues. Glue on. Integrated brake-light.

CARACTERE
 TYPE CRS.8G

A4/S4 Cabriolet only
Classy low profile spoiler to accent the trunk. Easy glue on installation.

UBERHAUS
 TYPE URS.8G

A4/S4 Cabriolet only
Sporty spoiler for the new and exciting A4 or S4 Cabrio.

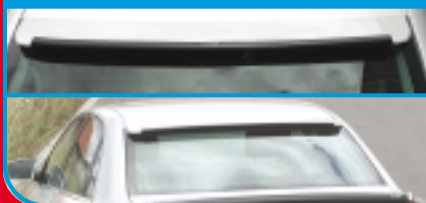

CARACTERE
TYPE CRS.8E

A smoothly styled upper roof spoiler. Coordinates with the elegant styling approach of CARACTERE's CTL.8E and CTH.8E trunk spoilers. Glue on.

JE DESIGN
TYPE JERS.8E

An exciting upper roof spoiler design with raised trailing inset edge. Inset shown painted mat black (option). Coordinates with JET3.8E trunk spoiler. Glue on.

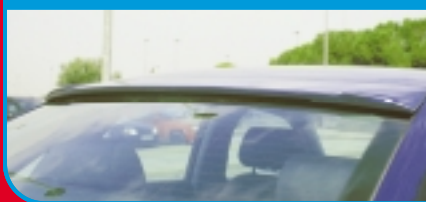

RIEGER
TYPE RRS.8E

A clean styled upper roof window spoiler. Blends nicely with the A4 overall styling. Coordinates perfectly with all A4 8E trunk spoiler. Glue on.

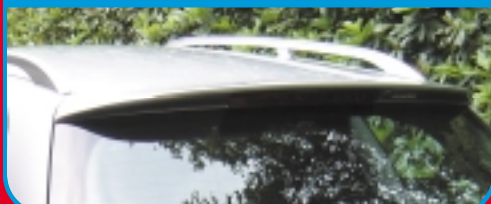

UBERHAUS
TYPE URS.8E

Designed to coordinates and perfectly blend with UBERHAUS UTS.8E trunk spoiler. Matching detente center section for balanced styling. Glue on. No light.

CARACTERE
TYPE CRA.8E

Superb "NEW" design for the Avant. Glue on. No light. Helps keep rear window cleaner.

JE: JERA.8E
JE: JESA.8E

The fantastic JE DESIGN Avant roof spoiler plus unique Shark Fin antenna cover. Perfect solutions with a dramatic effect. Both glue on. No light. Sold separately.

UBERHAUS
TYPE URA.8E

A super A4/S4 design for the Avant. Perfectly styled. Not overly aggressive. Enhances without altering the factory design objectives. Glue on. No light.

Notice to S4 4.2 sedan owners: The new S4 sedan is delivered with a tiny trunk spoiler. After removal, there may be a few small bolt holes in the trunk panel. When purchasing a larger more dynamic LLTEK supplied trunk spoiler, LLTEK will also supply mini domed caps (optional paint) to cover and seal any exposed holes. This is the same "hole solution" which LLTEK employs with the Audi TT (refer to TT accessory section for details).

Tuner Series Valance Program

LLTEK presents a new line-up of Tuner series add-on rear valances which are easy to install, producing amazing transformation and restyling of the "derriere" of current A4/S48E cars plus the A6 4B. This product series includes design variations for dual (2 tips per factory) and quad (4 tips with LLTEK exhaust systems or optional tips) applications for specific Audi models. Some of the designs feature technical stainless steel bolt options to further highlight the tip opening area.

These Tuner Series valance designs are perfectly suited to be used on leased vehicle as the valance can be easily removed. The A4/S4 Dual Valance doesn't require cutting or modification to the factory bumper so getting the car back to its original condition is easily accomplished. LLTEK professional quality Match Paint or accent color paint option is recommended.

NOTE: There is no cutting in either dual or quad versions of the wide lateral area behind the mesh. Instead, you are provided with a flat black stick-on strip which is placed on the bumper to create a darkened area. The mesh fits near flush to this black strip to create the visual effect of "see through". This is important, particularly if your car is leased or modification to the factory bumper is not an option.

WARNING: The valance design for the S4 4.2, sedan or Avant, in dual or quad configuration fits the world production of the car as does the rest of the S4 styling program. Valance designs for the A4 or A6, sedan or Avant, fit only the USA/Canadian models but may be modified locally to fit a European model.

Quad configuration
(2 tips per side)

Dual configuration
(1 tip per side)

Dual configuration valance with optional stainless steel bolts shown on S4. A4 variation looks similar.

A4 Quad configuration valance • S4 variation looks similar

Prices in US dollars; specifications, availability and pricing subject to change. A6 4B Quad conversion kit under consideration, call. Dual configuration = 1 tip per side, Quad configuration = 2 tips per side. ROW means Rest Of the World. WS means With Sensors. NS means No Sensors

A6/S6: STAY TUNED

More goodies for the A6 are under development at LLTEK. Our team is working around the clock to bring distinctive and sporty lower rear valance designs for A6/S6 cars. Now, your car can benefit from the easiest rear valance upgrade there is. Subtle touch with sporty appeal.

There are several variations of the A6 rear bumper. So, contact LLTEK for availability of the different applications. For early pre-facelift (PF) A6 2.8/2.7T/4.2 variation, look for the Tuner Series cat back exhaust or simple exhaust tip conversion program allowing exhaust tips to exit through the rear bumper.

TWO DESIGN STYLES:

- R6 valance design
- RSR valance design

R6-look on A6 sedan

RSR valance on S6 Avant

LIGHTING STUFF UBERHÄUS /// KAMEI JE DESIGN

Headlight mask • TYPE UBHM.8E UBERHÄUS /// Superb styling upgrade for distinctive look. ABS automotive grade plastic. Match paint recommended. Covers 90% of yellow corner reflector. Adhesive supplied. Easy installation. **Now, consider the S-YO bulb!**

Headlight accent • KAMEI Simple yet tasteful addition with a strongly recommended match paint option. Easy installation. Upper and lower eyebrow set sold separately
2. TYPE KUE.8E Upper eyebrow set **3. TYPE KLE.8E** Lower eyebrow set **4.** Upper and lower eyebrows

Headlight accent • JE DESIGN
 Create a sleek front design. Several configuration to choose from. Each set sold separately. Match paint recommended.

Tail light mask • A4•S4

A superb tail light enhancement. Automotive grade ABS plastic. Match paint recommended. This is a great product to complete the overall custom look of any A4 or S4 sedan or Avant. Fits OEM shape only.

8. TYPE UBTMS.8E
 Sedan set

9. TYPE UBTMA.8E
 Avant set

E. A SPORT TYPE DTM-LOOK CFSG.8E

Huge race inspired air intake aera • Carbon fiber finish • Fits the A4/S4 • Original Audi rings (not included) are transferable • LLTEK badge included.

SPORT GRILL • UPPER

A. KAMEI KSGMT.8E

Traditional mesh pattern in Titanium Deep grey

B. KAMEI KSGMB.8E

Cross Hatch medium mesh in Black

Kamei grills feature no center hole. Frame in ABS Black plastic – optional frame paint recommended or RS Silver. Co-ordinating lower grill in same mesh available. Easy snap-in installation – no mods, no drilling but you must bend the lever to lengthen the lever. OEM Audi rings (not included) can be resecured on to grill surface if desired. LLTEK badge is included.

No hole? How does it work? Kamei, UBERHAUS and A-Sport have solutions to eliminate the hood release hole. All solutions involve a small shortening and bending modification to the hood lever. UBERHAUS provides a replacement lever extension. Should you ever wish to restore the lever, a new lever can be purchased inexpensively from your friendly dealer. The Caractere grill still uses an opening in the grill which is camouflaged within the Audi rings. Specifications are always subject to change.

C. CARACTERE CSG.8E

Mesh pattern • Black • 3D ultra deep recessed frame and mesh • Optional frame paint recommended in match or contrasting RS or Titanium color • Easy installation • OEM Audi rings (not included) re-install on to a fixed integrated plate • LLTEK badge included.

D. UBERHAUS TYPE RS4-LOOK UBSG.8E

New RS4-style badgeless sport grill manufactured in chip resistant black PURIM with thick cross weave pattern. Fits the A4/S4 • Original Audi rings (not included) can be secured on to the mesh • LLTEK badge included.

No center latch release access hole! A unique hidden hood release is provided. Easy installation.

Air scoop bezels • Not S4 Lip spoilers • Not S4

A. Air scoop/fog light bezels Stylish and easy upgrade for A4 8E (not S4). Each scoop compresses air and reduces moisture. Excellent for enhanced intercooler performance. Black mesh included. Match paint recommended. Easy installation. **TYPE ZAS.8E**

B. Lower lip spoilers Coordinating companion to Zender air scoop upgrade. Stylish lip spoiler redefines the lower bumper for a more purposeful and aggressive look. Not for S4. Adhesive supplied. Match paint recommended. Easy glue on installation. **TYPE ZLS.8E**

Air scoop bezels • Not S4

TYPE JEAS.8E Good looks and added functionality characterize the sculptured air scoops from JE DESIGN. This upgrade funnels compressed air towards the intercooler on turbocharged cars. Not for S4.

Installation is uncomplicated. Hi-quality match paint option is recommended. Shown with JE DESIGN lower lip spoiler (sold separately).

Genuine Carbon Fiber 4-piece B and C pillar kit

For the A4/S4 (8E) sedan. Genuine carbon fiber. Covers B pillar between front and rear windows. Covers C-pillar, the small triangular area at corner of rear door window. A technical styling upgrade. Just peel and stick. Two LLTEK uninstalled badges included (design may vary). **UHCDF.8E**

Lower door match paint solution

A simple fix for the Audi OEM gray lower door trim is the 4-piece UBERHAUS kit available match painted to your car color. Just peel and stick! Best ordered with pre-painted side skirts to create a perfect blended color look.

TYPE UHLD.8E

Pre-painted
LLTEK overlay
OEM gray plastic
lower door trim

Apply the pre-painted overlay to the factory lower door trim piece for instant color blend result.

LLTEK Paint Program

You are a busy person, concerned with important issues in your life. Consider the convenience and practicality of the **LLTEK MATCH PAINT PROGRAM** right out of your box! Match painting is available for all aero components at a very reasonable cost. Save yourself the hassle of getting your new aero parts painted locally. From the box to your car and the road awaits!

SPORT GRILL • LOWER

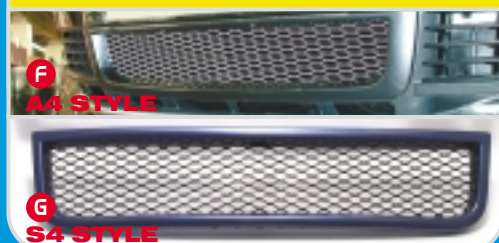

F. KAMEI KLGMT.8E NOT S4
Titanium mesh pattern • Optional frame paint • Co-ordinates with Kamei upper grill.

G. KAMEI UBLGCM.8E NOT S4.
Medium or large cross hatch pattern • Black • Co-ordinates with other upper grills.

H. ASPORT CFLGA4.8E NOT S4
Carbon fiber frame • Choose mesh styles in black • No photo available

I. UHAUS UHLGS4.8E ONLY S4
Composite frame • Specify mesh in traditional (small), cross hatch (med), or RS4 (large) style.

J. UHAUS UHLGS4K.8E ONLY S4
Carbon fiber frame • Specify mesh in traditional (small), cross hatch (med), or RS4 (large) style.

Turbos only: Type D-BOV

THE WORLD FIRST ADJUSTABLE DIVERTER AND BOV! ALL-IN-ONE DESIGN FOR STREET OR TRACK

Introducing the precision manufactured ultra high performance Diverter replacement upgrade with full adjustable BOV (Blow Off Valve) features. Perfect for track or street application. This 4th generation super valve produces maximum throttle response and power. Easy to install, is stealth and sounds wicked! Best of all, flick the top to control sound volume⁽¹⁾. Flick the lower ring to determine when you want the valve to function.

⁽¹⁾ Limited sound performance when used on automatic or CVT equipped cars

Limited sound performance when used with automatic / CVT equipped cars.			

KRYSTAL KLEAR EURO PROJECTORS FOR A4/S4

Available in HID or Halogen versions, chrome or S4 black!

The all new Audi A4 (B6-8E) arrives with its own new unique headlamp design. An upgrade to a European specification Valeo OEM version will produce a profound impact on lighting improvement. See further down the road, reduce fatigue and driver error. Notice the airtight sleeve covering the face of the turn signal bulb. Add only the single filament S-YO and the transformation is complete (minor modification needed)!

New headlamp internally black: Valeo has designed a variant of the new A4 (B6-8E) headlamp for the new 340HP S4! The design specification calls for the interior of the headlamp to be mostly mat black. LLTEK will carry this version in both HID D1S and Halogen.

Notice regarding OEM HID versions: There are 2 Valeo HID variants. One variant uses the D2S system from Valeo where the bulb fits into a round receptacle. The second variant is D1S where the bulb fits into a square receptacle, which also doubles as a built-in starter/igniter. This newer version is the model LLTEK carries. On occasion, LLTEK will have access to the first variant (D2S).

Headlights are all E-code specification for Europe, not USA. E-code is accepted in Canada. The decision is yours. European beam patterns are generally longer and lower with a tighter pattern.

LLTEK GOES BULB!

SAVE 90%

TOTAL BULB OFFER FOR HID

Retrolux sport mirrors with optional integrated turn signal

Hagus

The new Retrolux Series from Europe was designed specifically for the Audi A4/S4 and RS4 8E cars. The set is available with optional LED integrated turn signals. Full remote, heat and prewired for Plug and Play (turn signal wires must be spliced into sidemarker indicator with supplied easy quick splice connectors). Refer to pages 34-37 for additional information.

OEM-style Replacement Mirrors

If you require a replacement mirror or mirror components, contact LLTEK first! Mirrors are supplied with full electric, heated, remote control and folding feature (if applicable). Dimming feature not supported. Optional metal-like back or RS paint are also recommended. Refer to mirror section for additional information.

Aluminum Shift Knobs

Grab a handful of pure aluminum billet from Zender of Germany! Splendid addition to the already well appointed A48E command center, these shift knobs install easily and their technical charms will do wonder for your self confidence at every change of gear. The connectivity fit design is specific to the A4, S4 and RS4 8E car. Universal fit shift knobs are very hard to fit.

Zender

Zender
Type ZSKS.8E

HID-Xenon upgrade

The best HID product since sliced bread! Easily convert Halogen lighting to genuine HID Xenon bulb without modification to your car's electrical circuit. Installation is a simple 1-2-3 and takes approximately an hour. See our lighting section in this catalog for details. This product was specifically designed for use in Audi, Porsche® and Volkswagen® cars.

H7 upgrade kit shown. Other bulb systems available. See lighting section for additional details (pages 45-57).

Leather base A4 • S4 • RS4

These leather covered support products are a clean and stylish method to secure any cellular telephone, GPS or PDA device. Installation generally takes only 10 minutes with no special tools required. Velcro disks are included for device attachment. These consoles look great and function beautifully. No car should be without one.

Secure any cellphone, PDA, GPS or MP3 device for easier access or operation!

VELCRO® DISCS
included
with holder

40-piece Dash Kit (See pages 32-33)

Go technical with a choice of genuine carbon fiber, futuristic Ultra metallic weave or classic, with the warmth of wood-like finish. Our dash and interior kits are designed for maximum coverage but you are the final designer. Use all 40 pieces or as little as you want to achieve "your" vision. High quality CNC laser cut with urethane coatings complement the design of your A4 cockpit. Installation is uncomplicated and the final results are simply astounding.

Specify your specific Audi radio configuration:

A. Audi Symphony®

B. Audi Concert®

Form fitted and contoured all season floor mat system (M+S)

Originally M & S stood for "Mud and Snow". However, these European designed mats are so attractive and so functional we consistently ship sets to Florida and Arizona! The mats for the A4(8E) are pre-contoured and designed specifically to cover the entire floorpan.

Each front mat is oversized with elevated protective edges on the outsides to better control water, mud, dirt or snow. The inside edge is raised and rides several extra inches up the side of the transmission console. These mats anchor securely using the Audi attachment pins.

Utilizing synthetic tight weave low-pile industrial grade carpet, the surface pile is designed to quickly wick moisture away. A thick heavy-duty driver heel pad is electronically bonded to the upper carpet surface for extra protection and long life. The easy to clean (just hose down and brush) carpet surface is bonded to a hi-tech flexible plastic tray ensuring no penetration of liquid material and creates perfect protection.

Available in Raven Black or Charcoal Gray with embroidered LLTEK logo.

Car Covers:

A4 • S4 sedan B5/8E
A4 • S4 Cabrio 8G
TT (coupe/Roadster)

Our car covers are model specific.

TYPE CCE.8E for true heavy duty outdoor, UV and moisture protection with 4 breathable layers.

TYPE CCS.8E for a lightweight 2 layered occasional dust and sun protection.

Not a universal product. Specific fit of Audi only

All season trunk liner • A4 • S4 • RS4 (8E)

Imported directly from Germany, the protective tough plastic trunk liner is a worthwhile investment. High sides control soiling of the factory carpet beneath. Edges are flexible allowing for oversized cargo (skis, bikes, surfboards, golf bags, etc.). The center section is "anti-slip" to reduce excessive cargo movement. To clean, simply remove and hose down. Now when you toss in dirty boots, grungy cans of paint or a muddy mountain bike, you will have full protection and peace of mind. For A4 (8G) Cabriolet, call LLTEK.

Sedan model (pictured)
Avant model also available

Flexible edges for oversized items

Anti-slip center section reduces cargo movement

Instrument cluster upgrade

Silver face • White face **Silverface option**

For many years, Audi designated their high performance S and RS performance cars with white and silver face gauge plates. Now transform your driving environment in a unique way with an instrument cluster gauge upgrade. Installation is worthwhile and results speak for themselves. Specify MPH or KMH when ordering. Available in white or silver face. Puts a smile on your face at buckle-up time!

A4 white face instrument gauge upgrade (Silver and MPH available)

Two Identity Protectors

Photo Flash and The Confuser

In the "we could not resist" department, LLTEK presents 2 different approaches to identity protection. LLTEK wants all drivers to respect the laws, observe posted speed limits and to drive safely with consideration to others. LLTEK also believes you should have a choice of preserving your identity if you are photographed without authorization.

1. PHOTO FLASH This unique product must be sprayed on weekly for effective results. Its secret "rare earth element" formula prevents unauthorized flash photography of the plate. This is of great interest to drivers throughout the world, where photo radar is used to ticket vehicle owners electronically via the mail. This is total stealth!

2. THE CONFUSER Introducing a 4th generation clear plastic lens capable of denying photo radar your identity. Viewed straight on, your numerals look perfectly normal. Viewed at height or at off axis angle, all numerals are in full reflective mode rendering the plate undecipherable. Now available in European sizes.

May not be legal in all areas. Verify with local authorities before using.

Photo FLASH Radar OFFER

For a limited time, take advantage of the LLTEK SPECIAL OFFER Photo FLASH Radar Fluid! Get 4 bottles for the price of 3, same shipping cost!

Beat "photo radar" with Photo Flash® Radar Deflector fluid or the plate Confuser!

Before

After

THE CONFUSER

AVAILABLE IN SEVERAL SIZES for North American and most European license plate sizes. Get yours today!

For additional information, refer to page 83.

Cold Air Intake Kits (AIK)
A4 1.8T • 3.0 • S4 4.2

LLTEK has developed over 10 unique cold Air Intake Kits (AIK) for various Audi models. Each kit is fully engineered and designed to wring out extra performance. Systems are model specific with different design and engineering concepts for turbo and normally aspirated engines. If you have an ECU modification, a performance exhaust and are an enthusiast driver, you will relieve internal stress on the motor and gain hidden power with our kit. Additional cold air simply means the mass airflow sensor will ask for more gas at the throttle body. You get a superior combustion mixture and thus more power. Comes with a HP washable filter, heat shield, mounting hardware and brackets. Installation is generally straightforward. You will also hear a louder induction noise as air rushes through the filter system much faster than before. Can you say "WOOOOSH"!

All AIKs feature free flow reusable microfiber air filter

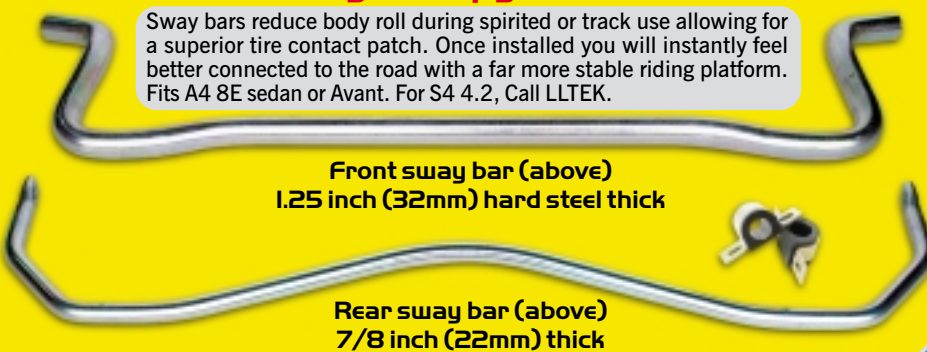

1.8T system components shown

3.0 system components installed

A4 8E sway bar upgrades

Sway bars reduce body roll during spirited or track use allowing for a superior tire contact patch. Once installed you will instantly feel better connected to the road with a far more stable riding platform. Fits A4 8E sedan or Avant. For S4 4.2, Call LLTEK.

Front sway bar (above)
1.25 inch (32mm) hard steel thick

Rear sway bar (above)
7/8 inch (22mm) thick

Coilpack kits • Call

Upgrade all your coilpacks with these high performance replacements. Superior resistance to heat. Specify 4, 6 or 8 cylinder coilpack upgrade kit.

Actual product and color may differ from pictured.

SAVES \$\$\$!...

High Performance Hoses kit
SAMCO of Europe

Turbo engines require the most high performance parts available. These are premium extra durable quality silicone rubber hose with 3 reinforcing plies. They are tougher, more reliable with better heat resistance in the harsh turbo environment. The surface is smooth for easy cleaning. 1.8T kit consist of 3 hoses.

Samco is a leading supplier to top racing and rally motorsport teams throughout the European world.

**Crosstower Brace Bar for A4 • S4 8E**

LLTEK has available new built in corner braces and a new bolt on crosstower bar for A4 Sedan cars without sport suspension (also not for the S4.42). For cars with sport suspension and for the S4.4.2, LLTEK has available a stronger, larger, yet lighter upgrade bar which replaces the factory bar and bolts into its former place. Your car will demonstrate a tighter, crispier feel, allowing for improved and superior handling. You will create more precise cornering during aggressive performance driving. What more could you ask for? (Photograph is only representative, final product may differ.)

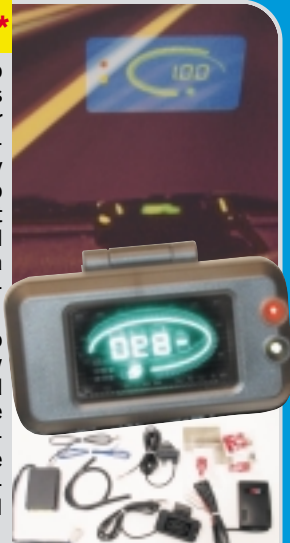

3 PIECE KIT:
Not for S4, not for sport suspension

LIGHTWEIGHT BAR:
For S4, for sport suspension. Lighter and stronger

Turbo Timer (HUD)*

Heads-Up Display (HUD) for a turbo timer and boost gauge display. This is a neat and amazing accessory for your Audi (or any 12 volt) turbocharged car. The HUD works by projecting a blue/green display on to the corner of the window, just like jet fighter technology. Display is in digital plus a circular bar graph. There is a "peak hold" mode and user controllable "over-boost" alarm mode.

Of course, the key feature is the turbo timer. The HUD device computes how hard and how hot the car motor is and will adjust the countdown time accordingly because it is always monitoring boost. For lighter running, the countdown is short. For longer running the time is extended. Manual time-out settings are user selectable.

* Installation is by experienced professionals only. If you car has a complicated alarm system, this product may not be for you. Some electric door lock functionality will have to be performed manually once the device has been activated.

Stylish Oil Cap

Zender CNC machined oil cap for A4 8E is the perfect finishing touch to the engine bay makeover. Crafted from solid billet aluminum, this cap redefines the engine as the heart of the car. Also fits A4(B5), A6(4B) and TT.

Zender oil cap shown on 3.0 L motor with optional Coilpack upgrade kit.

**Brake caliper lacquer**

This is not ordinary paint. It is a special two-step process utilizing high quality, heat resistant lacquer. Painting your calipers will not increase stopping power, but people will certainly stop to look at your car. This is a tasteful, low cost upgrade to make your Audi or any car unique. Sufficient paint for six calipers. Three colors to choose:

Racing Red • Speed Yellow • Silver Alu

Call your friendly LLTEK representative for information and to order

A4/S4 1.8TQ • 3.0Q • S4 4.2 (1) 8E SNIPER SERIES (Includes Avant)

SPECIAL NOTICE: All Sniper Systems in PRO, Dual or Quad (PLUS) configuration are adaptable to aftermarket valance designs. This flexibility is the result of "micro adjustable hangers" and "flex joints" in critical locations.

SNIPER

Refer to pages 28 to 31 for more details

Sniper Series (dual exhaust)

- Specify engine size
- Quattro only systems
- Full cat-back system
- Not overly loud (subjective)
- Rich deep tone (3.0 • 4.2)
- Full mandrel bends
- Heavy duty bolts and flanges
- Stainless construction throughout
- Easy bolt-on application
- No cutting, no welding
- For all Motronic (ECU) upgrades
- Micro adjustable hangers
- Tip position is micro selectable
- Tip extension is user selectable
- Lifetime warranty
- Flex joints (for multiple valance designs)
- 1.8T: 14 HP gain / 3.0: 12 HP gain / 4.2: 15 HP gain with 94 RON gas
- Pipe diameter: 2.25 to 2.5 in.
- Dual 3.5in. inward beveled resonated chrome tips
- SNIPER PLUS conversion available (quad)
- SNIPER PRO for S4 only
- S4 Downpipe option
- S4 hi-pass cat option
- S4 cross resonator baffle

Downpipe included with 1.8T at no extra cost

(4) Precise HP figures not available prior to printing. LLTEK expects an 18 HP gain (at low end) as engine specifications are near identical to S6 4.2 motor.

SNIPER PLUS All Sniper Systems include one 3.5in. tip per side. Each Sniper Systems is easily converted to a "PLUS" configuration with four live exit tips. Simply unscrew a hidden cap and install a second set of tips for a fully active quad system.

Sniper PLUS (Quad exhaust)

LLTEK is continuously improving its A4 and S4 8E exhaust program. Specification and design are subject to ongoing upgrades.

S4 4.2 "SNIPER PRO" SYSTEM. DOWNPIPE DATA:

(Downpipe is an option)

Factory OEM ceramic RESTRICTED
400 cell/sq. in.
Restricted for emissions

Downpipe with hi-pass FREE FLOW
(HP recommended)
300 cell/sq. in.
BDPS442.300

Catalytic converter: Weekend track/street
100 cell/sq. in.
BDPS442.100

300 cell/sq.in.

100 cell/sq.in.

Exhaust Valance: Dual or Quad

Upgrade the look of the factory (OEM) bumper with this technical lower valance. Works equally well with adjustable slip on tips or complete Sniper exhaust. The dual rear valance design does not require cutting of the bumper. It is also removable, a feature that is highly appreciated for leased cars. There are sedan and Avant versions, available in dual or quad configuration. S4 versions are also available for either sedan or Avant with dual or quad configuration, for both USA/Canada and Euro models. All A4 exhaust valances are designed for the USA/Canada specification car only.

Quad valance in Titanium

Fits directly on factory bumper
Bolt option shown

Refer to page 116 for additional details

A4: 1.8T • 3.0 • S4 4.2 Stainless Overtips

To achieve an aggressive-looking exhaust effect, install the double-walled polished moderately angled stainless steel tips over the factory endpipes. Adjust the protrusion to your preference and the transformation is immediate. Specify A48E sedan/Avant and motor, A48G cabriolet and motor. Installs in minutes. See page 43

LLTEK TUNER SERIES

Tips supplied with preinstalled LLTEK Tuner Series badge. Badge can be removed if needed.

See page 43

Normal extension

Slightly outward

Maximum extension

BEFORE: OEM look

AFTER: with overtips

Stylish exhaust trim • A48E OEM valance: choose Dual or Quad

Perfect styling touch while maintaining the original factory (OEM) rear valance on your A4. Perfect companion to Sniper Exhaust system or adjustable slip-on tips. Features stainless steel hex bolts plus RS silver finish. Match paint available as an option or Titanium silver. Specify sedan or Avant. Fits USA/Canada A48E factory valance only. 2 models: dual pipe exhaust (shown) or Quad pipe.

Quad exhaust trim shown in match paint on factory rear valance

UltraSport equipped A4 8E:

NOTICE/WARNING FOR REAR BUMPER UPGRADE

Should you have the Audi UltraSport option on your car and wish to upgrade your rear UltraSport valance to an after-market product, you will require a special version for proper fitment.

- USA: Type Euro • Mod E
- Canada: Type standard • Mod U

USA and Canadian rear aftermarket bumper versions for the UltraSport are not interchangeable.

Specifications subject to change.

PERFORMANCE BRAKES

LLTEK pulls all stops with performance braking! Refer to our complete brake section on pages 15-19 for more details.

A4 8E Hi-flow quad silencers

Hi-performance stainless steel double muffler with stylish quad tip design. Direct OEM muffler replacement. Lengthy tips for proper fit with deep valance. Easy clamp on installation and sporty exhaust note at comfortable levels. Requires OEM valance modification or JE valance. Fits 1.8T and 3.0 engines.

Blow your top, LLTEK style!

Express your spirit and freedom with the exciting styling program for the Audi A4 Cabriolet! Create a more sporty, aggressive yet tastefully elegant look with simple upgrades.

The new flexible PURIM front lower bumper creates a dynamic frontal appearance with bold air intakes. The lower rear center valance is stylish and accented by sporty mesh, further defining the exhaust tips. The classic low profile rear spoiler is both elegant and sporty. The front sport grill is a dynamic and bold statement. Other new options, such as suspension, performance exhaust, Retrolux R sport mirrors, and many more products are under development.

The entire LLTEK wheel program is currently available for the cabriolet model. LLTEK offers all components pre-painted as a convenient low cost option.

exclusiv
Line

Tuned dual sport
mufflers with
oversized polished tips
complement any valance
treatment. Also fits the
factory valance.

Exhaust tips recommended with valance.

UBERHAUS

CARACTERE
AUTOMOBILE

Rear center with oversized round tips

CABRIOLET DASH KIT Our latest A4 Cabriolet kit (wood-like shown on a 1.8T) is a perfect upgrade with over 20 pieces. It produces a transformation upgrade surpassing the interior styling of its more costly 3.0 liter cousin. Also available in real carbon fiber, ultra weave (metallic, red, blue or yellow) or match painted. Refer to the Dash Kit section on page 32 for full details. Kit currently fits Audi Symphony® radio console only (shown in this picture).

A4/S4 CABRIOLET LEATHER BASE FOR CELL, PDA, GPS

Ideally suited for all electronic gizmos required by today's lifestyle. Two velcro attachment disks included. Maintain cellphone, PDA, MP3 or GPS device close at hand while in the car. Refer to cellphone base section on page 27 for full details.

The Audi A4 and S4 Cabriolet!

The world of Audi continues to mature and grow. LLTEK engaged UBERHÄUS to propose a muscular styling treatment for the Cabriolet on the basis of a new S4 version of the model. All things being equal, these components will fit both the regular A4 Cab and the S4-based super Cab variant. Contact LLTEK for availability of this new styling aero kit. Prices shown for the S4 products are subject to revision prior to release although LLTEK believes the design and price should hold.

Satin finish aluminum sport pedal set. Deadpedal also available.

MORE GENERAL INFORMATION FOR A4/S4 CAB:

Custom air intake scoops	Tuner Series Pedal sets
Full lower add-on spoiler	Tuner Series dead pedal
Sculptured side skirts	Slide-on 100mm exhaust tips
Rear trunk spoiler	Tail light masks (not illustrated)
Front headlight Euro brows	Black leather cellphone base
Rear lower valance	Retrolux mirror with blinker
Quad tipped muffler system	HID Serious Vision upgrades

Xenon upgrade kit for H7 Halogen headlamps

Tuned Quad tip freeflow sport muffler with oversized polished tips makes a bold racy statement and releases hidden power for enjoyment on the road ahead. Quad requires a valance upgrade.

WARNING

EXHAUST/VALANCE NOTATION:

In certain countries and in some A4 8G Cabriolet models, it may be necessary to relocate a rear sensor in order to install the performance muffler and rear styling valances. This is a very minor modification.

In North America, the sensor on the A4 does not currently interfere with the installation of the valance nor the performance exhausts. The USA and Euro valance are not interchangeable. Specifications subject to change.
