BELGIUM is famous for waffles, chocolates and intensely detailed Audi styling from Belgium based Caractere. This unique seasoned European design firm creates technical and balanced looks for the Audi TT beyond expectation. No detail is ever overlooked.

Examine the front replacement lower bumper section. Its oversized intake is superbly styled to allow needed extra intercooler air. Then notice the tastefully styled integral center lip spoiler protrusion. The TT inspired dimpled leading edge front corners, perfectly coordinate with the dimpled side enhancers which are flush fitting (both available in optional second

color). Look at the perfectly executed lower door fill in panels which smooth out the harsh factory edge crease. Next examine the precision detail and execution of the stylish twin exhaust frames on the rear valance (second color option). Again, no detail is overlooked. The lower rear exhaust valance with included exhaust frames (choose one or two exits) plus optional mesh screen creates new and exciting visual detail to make the car bolder and more dynamic.

Caractere's approach to the all important rear trunk spoiler design is perfectly balanced and detailed, providing the per-

fect spoiler upgrade. Finally examine the three dimensional front TT grill. This grill, with total attention to detail, crowns the TT like no other. The Caractere design team has done it all. Without question an investment in Caractere styling parts guarantees you unique and personalized TT ownership. Your TT will take on a personality of its own.

TYPE CT.TT arched trunk spoiler • TYPE CE2.TT exhaust lower valance (2 openings) • TYPE CDI.TT lower door insert kit

Exhaust frame included • TYPE CSG.TT 3-dimensional mesh sport grill with optional CARACTERE RS4 badge • Oversized air intake vent

TYPE CL.TT front replacement lip spoiler with oversized air intake vents • TYPE CSG.TT 3-dimensional mesh sport grill with badge option

LLTEK Paint Program

You are a busy person, concerned with important issues in your life. Consider the convenience and practicality of the **LLTEK MATCH PAINT PROGRAM** right out of your box! Match painting is available for all aero components at a very reasonable cost. Save yourself the hassle of getting your new Audi aero parts painted locally. From the box to your car and the road awaits!

CARACTERE

RIEGER TUNING provides the Audi TT owner with exciting technical and race inspired styling products. For the TT, Rieger has developed several technical aero pieces; all easy to install. In addition there are new racing inspired limited edition "under car" products to also consider. These are functional aero parts.

Examine the signature styling of the Rieger side sills blending perfectly with the Classic and RS4-look TT fronts. Look for a smooth integrated finish to give the appearance of a lower slung more purposeful Audi. The ultra smooth rear trunk spoiler (page 134) is a perfect blend of style and function. Finally the TT upper roof spoiler (coupe only) completes the transformation of all TT cars from classic soft sports car to an inspiring masculine look. Then examine the front "under car" black lower leading edge splitter. This product is custom designed to fit beneath the Rieger lip spoiler add-on. At the rear of the car there is a second "under car" splitter to fit below the exciting and technical tri-opening Rieger add-on exhaust valance.

When your car is completed, the transformation is guaranteed to ensure a complete new set of friends, fans and observers. Rieger aerodynamic accessories are guaranteed to create a major personalized change to the car and the car's owner.

**V1 Classic
on board**

New RS Four look for TT If you want enhanced air flow for extra performance then consider the new Rieger RS Four Look styling with 3 larger vent opennings. Because of the extremely large openings, components like high performance intercoolers and air intake systems perform with increased efficiency. Even without special hardware, this lower spoiler design will provide a modest gain in horsepower just because of the increased airflow, but a substantial gain in great looks! Also, consider the optional matched lower lip edge as well. Also available in mat black or optional custom paint color.

V2 RS4-look on board

Standox/Herbert Paint from Germany

V1 Classic lip spoiler • Side skirts • REVI.TT exhaust valance • Tail light covers • Tuner Rad Wheels

RS TT spoiler extender

TYPE UHC.TT headlamp cover

TYPE UTC.TT tail light cover

VI Classic Exhaust valance with quad tips

TYPE RFSI.TT black front splitter • JSG.TT mesh sport grill • VI model

V2 rear splitter • Add-on exhaust valance, LLTEK tips

TT Rear Valance dilemma: Don't be fooled by their similarities, the lower and more aggressive RS Four lower valance is designed for huge exhaust tips. It can accommodate tips up to 120mm (4.75 in.) in diameter. The Classic rear valance is sporty yet elegant and can be fitted with tips or exhaust systems with tip diameters up to 90mm (3.5 in.). Both have a specific splitter option.

Compare RS Four exhaust valance (left) with Classic (right)

REV2.TT RS-Four exhaust valance allows for 120mm exhaust tips.

LLTEK Motorsports is not affiliated with Audi AG nor Audi of America nor Porsche AG nor Porsche Cars North America Inc. nor Volkswagen AG nor Volkswagen of America Inc. in any way.

ZENDER is probably one of the finest design centers in Europe. Examine the very technically styled dual leading corner lip spoilers. Even the lower center section of this glue on lip spoiler has been broadened to make the car more masculine and more aggressive.

Once installed, this dynamic aero accessory will change the look of the car to better reflect what Audi stylists should have achieved.

The elegantly designed glue on rear spoiler completes the transformation of the Audi TT car or consider the sleek new black RS spoiler extender (page 139).

Zender wheels are some of the finest designs ever produced. For more wheel information, refer to the LLTEK wheel program on pages 12 to 14.

Aero styling transformation for TT

This 2 piece German styling kit for the TT does it all. Install a complete new front bumper to obtain massive air intake for superior inter-cooler air flow and a unique touring car look. Then swap out the rear bumper for coordinating corner air exit vents plus a horizontally vented center grilled exhaust section. Both pieces are manufactured in high quality composite fiber-glass material. Specify one or two exit tail - pipe openings.

UBERHAUS

Adjustable new angled tip design replaces the above horizontal tips.

Quad exhaust conversion valance and tips for TT

Whether your car is a 185HP or 225HP, you do not need a completely new exhaust system to obtain the quad look. Now available with adjustable tips for a truly personalized look.
