Every TT deserves a break!

Small styling upgrades produce exciting results. There are numerous interesting upgrades all designed to transform your Audi TT in a unique and personalized manner. Four sport grills for the TT!

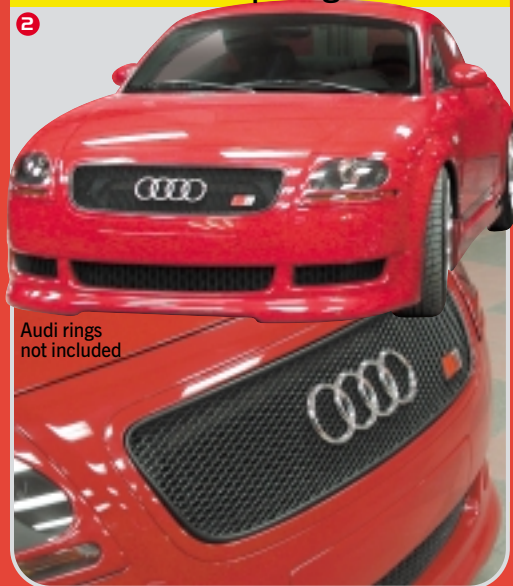

LLTEK badge included. (Audi rings not included)

CARACTERE TYPE CSG.TT 3D sport grill

Audi rings
not included

UBERHAUS TYPE JSG.TT Mesh sport grill

Audi rings
not included

JE DESIGN TYPE JESG.TT Framed 3D sport grill

Audi rings not included

JE lip spoilers on board!

Front facelift

Nothing beats coordination of styles. This 3-piece combo (parts sold separately) is a perfect styling upgrade for any Audi TT.

1. TYPE USG.TT Sport grill and reducer
2. TYPE ULG.TT Lower center grill
3. TYPE UAS.TT Side air scoop grill set (2 pieces)

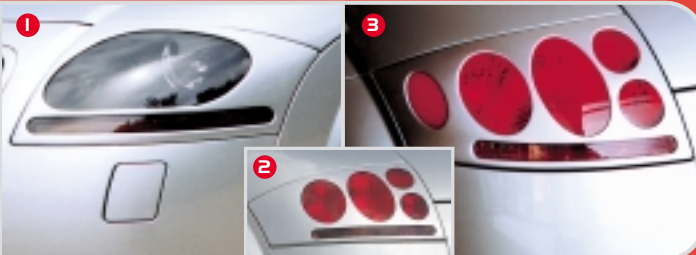

Front sport grill and reducer with circular grill openings plus matching lower center grill and vents. Can fit with TT Rieger or Zender lip spoiler^(*) (below)

Light masks

The perfect accessory to subtly change the look of any TT. Simple glue-on installation produces a perfect and dramatic upgrade.

1. Front UHC.TT
2. Rear JTC.TT
3. Rear UTC.TT

Side enhancers kits TT

Enhancer upgrades is a neat way to make your TT different from all others. Installation is easy and quick. Two distinct styles are available.

TYPE USE.TT (above) moderately outboard • Easy bolt-on installation

TYPE CSE.TT flush fit dimpled CARACTERE enhancers with optional contrasting paint color

Speedster Cowling TT

From TT Roadster to hot TT Speedster in a flash. Improves aerodynamic flow in the cockpit and makes a dramatic/nostalgic styling statement. Easy installation and splits for storage in trunk.

Match paint option available

TYPE USC.TT create a nostalgic and dramatic upgrade to a TT speedster.

Get the "Hole" Story

(a solution for TT)

When Audi added its own mini trunk spoiler to the TT, it created a minor dilemma for discriminating owners who want to upgrade to a more exciting or dramatic spoiler look. When removing the bolts on the factory spoiler you discover up to six very small holes (on some cars there are only four holes). Normally a "hole" problem necessitates an expensive trunk repaint. Wait! LLTEK has the entire "hole" solution under control. Included with every LLTEK supplied trunk spoiler for TT are six small domed urethane hole covers plus several spares. When painted and installed, the covers are virtually invisible. Since the two outboard holes (per side) are on the outer edges, both the Caractere and Rieger TT add-on rear spoilers virtually conceal the four outer covers. The remaining two holes are at the center of the trunk and the supplied covers render the holes almost invisible. In fact, the covers look like mini GPS satellite receiver domes. In the end the domed urethane covers do their job well and allow an upgrade spoiler installation with no need to expensively repair and paint the trunk. LLTEK has the "hole" solution under control.

NOTE: When removing the OEM wing spoiler, you will also find Audi also uses liberal amounts of glue. The removal of this glue is the responsibility of the installer. The majority of the glue material is carefully shaved off. Then a paint thinner is used to remove the remaining glue. This procedure can avoid a local repainting. Consider the black RS Spoiler Extender which installs against the OEM trunk spoiler

2 Distinctive Exhaust Valances for the Audi TT

TYPE UFD.TT An easy to install lower full diffuser with dual exhaust outlets. This is a clean and simple glue-on/bolt-on installation without modification to the Audi TT. The results produce an outstanding look and enhance any TT. If your car is a 180HP, you can order our tip conversion kit to create a 225HP look!

TYPE UEVQ.TT The ultimate Quad look in a few easy steps. This rear valance actually replaces the factory valance. It is designed to be used in conjunction with an LLTEK Hi-Performance quad exhaust system. Alternatively, you can purchase the tip weld-on upgrade kit for a 225HP or 180HP car.

Spoiler extender for RS-look in black

To re-create the look and style of the Audi TT 3.2 RS 250Hp model, simply add the new UBERHAUS black wrap around collar. This unique design allows you to fit the new collar against the Audi factory existing trunk spoiler. Installation is fast and easy, nothing to remove. Even better, there is no need for paint as the part is supplied with a perfect mat black finish similar to the OEM piece. Easy installation!

Features one mini decal indent for supplied badge.

Installs easily against factory trunk spoiler! No painting required

Versatile Rack System :TT

Under bumper discrete unobtrusive support design. Installs in two minutes with unrestricted trunk access. Holds up to 3 bicycles, includes straps and adjustable arms. Quick disconnect and folds to fit in the trunk of your TT! Requires included under car adapter to accept support. See photos.

Optional ski and snowboard attachment. Carries three pairs of skis or two pairs of skis with one snowboard. Capacity can be doubled with a second attachment. Refer to rack/hitch section on page 40.

Refer to page 40 for complete details

Rack is designed to permit easy access to the trunk without the hassle of unloading bicycles/skies or removal of the rack itself!

WINTER ACTION

Finally a rack system for TT that keeps up with you!

SUMMER FUN

- Direct trunk access
- Discrete under bracket
- Light and sturdy
- Stores in TT trunk
- All season rack system

High Styled Custom Floor Mats-TT

These are highly styled carpets and use the traditional Audi racing colors of red, silver and black. These automotive grade carpets (in black) will enhance the look of the interior of your Audi TT and will provide maximum protection of the interior footwell of your car. The driver-side heel pad also provides additional heavier duty protection from friction, wear or other sources of damage. This extra reinforcement ensures longevity of the carpet. All carpets are edge-trimmed in silver gray. This process is not the typical low-quality banding method; instead, our manufactured edges are coil-stitch embroidered, which adds to the high-quality visual effect.

- **Precise custom shaped to fit the TT**
- **Heel pad electronically welded for longer life**
- **Woven gray outer border throughout**
- **Black high grade carpet - tight pile**
- **Manufactured in Europe by skilled craftsmen**
- **LLTEK badge embedded on the carpet**

High quality, perfect fit mats for TT

Custom fit trunkliner for TT

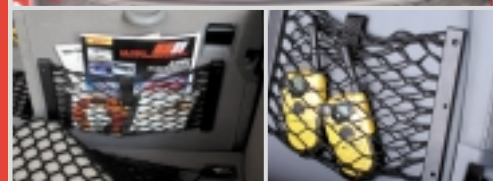

Flexible sides for oversized cargo plus a non-slip center section. Made in Germany for the Audi TT. Every TT should have this protective trunk product. Note: On certain 2002+ TT cars, relocation of the tool set may be required or a minor scissor cut can be made.

Universal trunk mat

A less expensive but excellent way to ensure your TT trunk area is well protected. Quality hi-density foam with non-slip back. Size 34.5 in. wide by 22.5 in. deep with a 3/4 in. lip.

Custom fit trunkliner is flexible enough to bend in order to accommodate larger items in the TT.

Secure all items then hit the road!

Cargo Net Set TT Keep your TT car tidy with these useful cargo net accessories. The TT coupe kit includes 5 nets (see pictures below): a seat back net for every seat in the car and a trunk floor net. The Roadster has only 3 nets. Installation is a breeze and provides secure and extra storage while negotiating those decreasing radius turns on your favorite stretch of road!

Car covers

Our Car Covers are custom fitted for the TT. Choose TYPE CCE.TT for true heavy duty outdoor UV and moisture protection with 4 breathable layers. or TYPE CCS.TT for a light-weight 2 layered occasional dust and sun protection.

BRA and Mirror COVERS

To protect the front end of your car, you can order the front Bra and companion mirror covers. Ideal for trips on windy back road situations where there is a loose gravel. Bras should be removed if there is prolonged moisture weather. Bras may require minor custom adjustment to fit well over upgraded front bumper or on certain cars that are equipped with extra bumper attachment. Available in black vinyl. Add \$33 for new carbon-look material. Refer to page 44 for more information.

Roadster Tonneau Cover

The LLTEK supplied Tonneau Cover for TT roadster is a great protection product and is a snap to install. Perfect for cold or fall days to trap heat in the footwell. The material is UV resistant, fire retardant and 100% water resistant. Not recommended for downpours. Choose black or silver.

Luggage Rack Carrier-TT

Include your TT in your active lifestyle with classic styling and design. The TT luggage rack allows the TT to carry golf club sets or extra luggage. Great look, fast and easy installation. Can store in the trunk. Options: various carrying straps, bike, or ski/snowboard attachments. Specify TT coupe or Roadster when ordering. Available in regular chrome or stunning titanium finish.

Carrier rack kit shown in Titanium finish.

THE ULTIMATE LEATHER ARMREST: TT SMART!

The lightly polished armrest for your TT cockpit:

Constructed with aircraft quality polished metals with a high quality black leather surface. Perfect fit in the advanced cockpit design of your TT fighter! Easy and quick installation. Rotates upward for easy access to center console bins. Without question this is a serious and technical product. No TT should leave home without one!

Dramatic good looks!

Perfect integration

Precision machining

Hello LLTEK

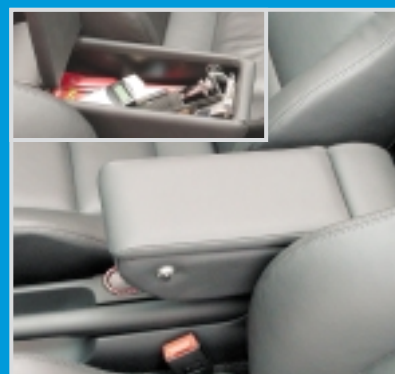

"Thought you might be interested to know that I installed my LLTEK center armrest in my 2003 TT over the weekend.

The unit looks great and is almost a perfect match to the TT interior. Most will never know it was not a factory installed component. I was most impressed with the quality of the armrest and the details. I am experienced in purchasing aviation grade machined parts and I must say the machine work on this piece is excellent, almost to the point of overkill!"

Martin S. C.P.M., '03 TT Roadster

Armrest Type B with storage compartment

This armrest is covered in full leather. It folds up when not in use exposing factory cupholders. A special benefit is the large lockable internal storage compartment with optional internal stainless steel foldable cup holder. There is a pass through hole for a cellphone connector. A very rich and luxurious upgrade. Available in black or Aviator gray leather. This is a special order item.

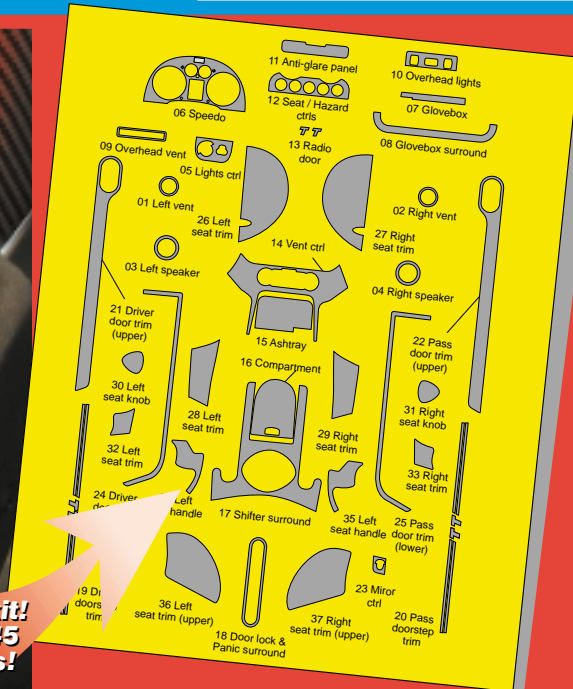

Enhance your TT interior with a choice of 7 dash and other interior upgrades. Once installed you will wonder why others go naked!

Depending on various velour finishes that Audi may utilize on the sides of the TT seats, some pieces may not adhere.

Air Intake Kits for your TT

Free air and power in the same package. The LLTEK cold air induction kits for the 1.8T are state-of-the-art stainless steel filter shielded and free flow microfiber air filters. Cold air induction systems are designed to provide increased performance without a heavy engine cost penalty and without undue mechanical stress! Your engine needs air to live. Like an athlete, better air flow improves performance and an LLTEK supplied cold air induction system increases intake airflow and allows for greater and cooler air mass to be delivered to the engine throttle body direct from Germany.

Refer to lines 57 to 60 on page 145 for some restrictions due to OEM lighting configuration.

Limited sound performance when used with automatic / CVT equipped cars.

Chrome tail lights Black tail lights

Either of these new Ecode tail lights will liven up the back of your TT. Quality manufacturing and strong design ensures a unique and personalized look. Available in Chrome or Black.

**Exciting
Styling for
your TT!**

**Choose Black (SO8N-02)
or Chrome (SO8N-01)**

Performance brake pads

Green Roadsport Kevlar compound replacement pads from EBC will make a definite improvement. The New V4 formulation adds non-ferrous fibers and other high tech ingredients to raise the performance levels of this pad and extended durability by a factor of 100-200%. Each pad carries a hi-performance rating for street use. Stopping distance in wet and dry is reduced while the high Kevlar content is asbestos-free and provides virtually dust free braking while being very kind on the rotors.

Total braking for all TT (8N)

LLTEK pulls all stops with performance braking for the dedicated Audi TT enthusiasts! From performance brake pads to complete big brake setups, your TT braking needs are covered.

**Refer to our complete
brake section on
pages 15 to 19**

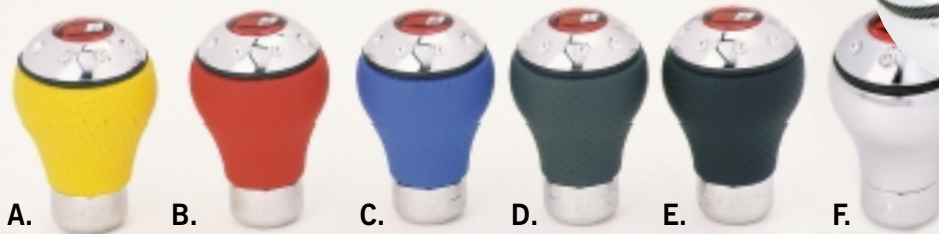

Shift knobs and shift gate

The tactile contact between driver and car starts with the shift knob and LLTEK provides plenty of exciting upgrade options. Models A thru F have dimpled chrome uppers, a single "O" rubber friction ring.

CHOOSE FROM: Yellow (A), Red (B), Blue (C), Grey (D), Anthracite black (E), or Matching all chrome (F).

Add a stylish shift gate and integrated leather boot (right) upgrade for a perfect transformation and a daily silly grin on your mug! Knob base screws into chrome fitting fixed to the leather boot.

TT shift gate with red shift knob

Cell, PDA, MP3 leather base

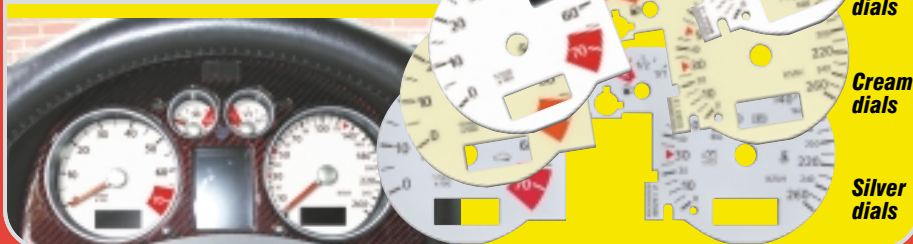

These leather covered support products are a clean and stylish method to secure any cellular telephone, GPS or PDA device. Installation generally takes only 15 minutes with no special tools required. The flat base is ready to accept any magnetic holder, velcro attachment (included) or alternatively simply install the appropriate cradle to secure your particular device. These bases look great and function beautifully. No TT should be without one.

VELCRO® DISCS INCLUDED
with holder

Gauge cluster styling-TT

This stunning upgrade transforms the way you will view instrumentation! All gauge fascia upgrades maintain all warning light functions and legibility. To top things up, choose a dash kit in genuine carbon fiber or technical synthetic metallic weave (see dash kit section on page 141). Gauge upgrades available in 3 colors: Sporty white, Authentic cream or Racing silver

white dials
Cream dials
Silver dials

Short shift upgrade for TT

Reduce shift lever throw and eliminate long and imprecise OEM lever travel. Precisely engineered kit includes all the necessary hardware and lubricants. This upgrade will provide hours of increased driver enjoyment.

B&M

HID Xenon conversion kit-H7

The best HID product since sliced bread! Easily convert Halogen bulbs to genuine HID Xenon bulbs without modification to your car's electrical circuit nor replacement of the headlamp housings. Installation is a simple 1-2-3 and takes approximately an hour.

With HID Xenon, less is more. This lighting technology provides a better light output with less power drain and bulbs last almost forever!

Refer to the lighting section in this catalog for more detailed information about HID Xenon technology and products.

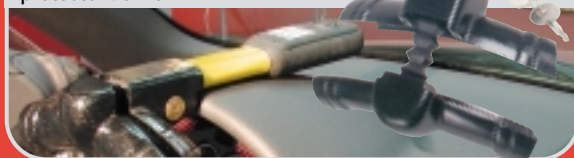

H7 conversion kit shown.
Other configurations available.
Call for details.
Refer to page 50

Steering locking bar for TT

Easy to use steering wheel lock combined with the added security of a high pitch ultra loud 115 DB siren controlled by internal motion and pressure sensors. Extra strong. No key installation for easy set up and installation (key used to unlock only). Digital keypad for alarm disabling. Deters would-be thieves with its bright yellow metal construction and ominous blinking bright flashing LED. Small enough to be stored under the seat.

Fits on all cars. Practical road rage protector as well!

High flow air filter • TT

K&N is the recognized leader in replacement "low restriction and free flow" drop-in reusable panel filters. This installation or upgrade takes only a few moments allowing extra air to the throttle body to create a nice gain in horsepower, unique pleated cotton grid traps dirt on the filter surface without impeding air flow. Order the optional cleaning kit to re-oil the filter surface and extend the life of this high performance reusable filter.

Brake caliper lacquer

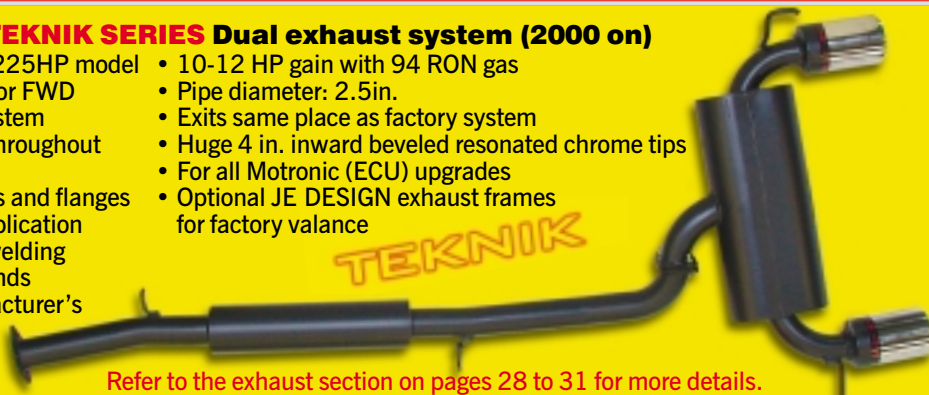

This is not ordinary paint. It is a special two-step process utilizing high quality heat resistant lacquer. Painting your calipers will not increase stopping power, but people will certainly stop to look at your car. This is a tasteful, low cost upgrade to make your Audi or any car unique. Sufficient paint for six calipers.

Racing Red • Speed Yellow • Silver Alu

TT 1.8T 8N TEKNIK SERIES Dual exhaust system (2000 on)

- Specify 180 or 225HP model
- Specify quattro or FWD
- Full cat-back system
- Stainless steel throughout
- Not overly loud
- Heavy duty bolts and flanges
- Easy bolt-on application
- No cutting, no welding
- Full mandrel bends
- Lifetime manufacturer's warranty
- 10-12 HP gain with 94 RON gas
- Pipe diameter: 2.5in.
- Exits same place as factory system
- Huge 4 in. inward beveled resonated chrome tips
- For all Motronic (ECU) upgrades
- Optional JE DESIGN exhaust frames for factory valance

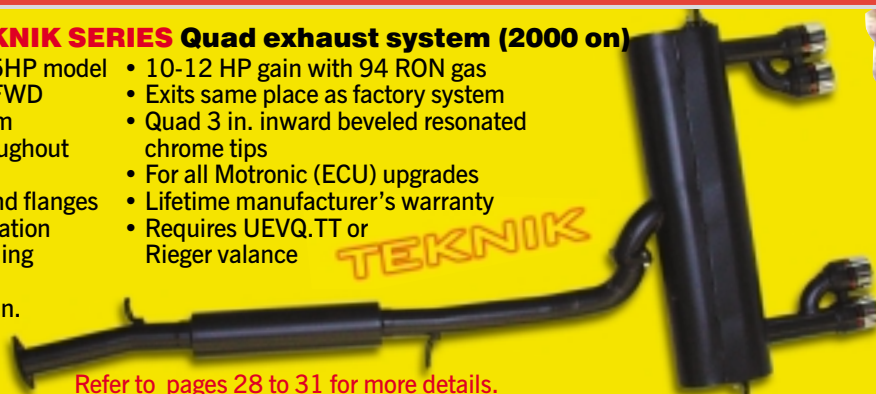

Refer to the exhaust section on pages 28 to 31 for more details.

10 or 14mm
post sizes

KEY FEATURES:

- Adjustable for 360° panoramic view
- Installs in two minutes
- No modifications needed
- Reverse mount feature allows use on driver's or passenger's headrest
- Supports a camera of up to 8 pounds
- For 10 mm posts: adjustment is 4 to 6.5 inches
- For 14mm posts: adjustment is 5.5 to 8 inches

DIN Radio Spacers for TT

If you wish to upgrade from the OEM radio in your TT, you will need special DIN spacers to properly fill the gaps. These black plastic spacers (photo below) were specifically designed to cleanly allow for the upgrade.

Deny "Photo radar" and protect your rights*

1. PHOTO FLASH RADAR FLUID This unique product must be sprayed on weekly for effective results. Its secret "rare earth element" formula prevents unauthorized flash photography of the plate. This is of great interest to drivers throughout the world, where photo radar is used to ticket vehicle owners electronically via the mail.

2. THE CONFUSER Introducing a 4th generation clear plastic lens capable of denying photo radar your identity. Viewed straight on, your numerals look perfectly normal. Viewed at height or at off axis angle, all numerals are in complete reflective mode rendering the plate undecipherable.

Now available in European sizes. Refer to page 83 for more details.

Straight: ID exposed!

Angle: ID Protected

There is still a lot more great products for your TT!

Refer to appropriate section throughout this catalog for information relating to wheels and tires, springs, shocks, coilovers, complete brake system upgrades, performance brake pads, brake rotors and high performance brake lines. Also see specific section on bike rack systems, mirror accessories, hi-flow air filters, decals and much more!

* Audi rings are not included and not sold by LLTEK Motorsports. Audi rings and badges are sold at authorized Audi dealerships. In most cases, rings are easily removed from existing grills for re-use on grill upgrades.

⁽¹⁾ Some minor modification to TT OEM bumper required

⁽²⁾ Installation of all TT grills requires front bumper removal.

⁽³⁾ Compatibility notice: minor modification required if installed

with either Rieger or Zender lip spoilers

⁽⁴⁾ See exhaust section in this catalog for added information. Quad configuration requires mandatory rear valance upgrade of either Rieger TYPE REV1/2.TT or UHAUS TYPE UEVQ.TT.

⁽⁵⁾ Requires 18 inch or larger wheels

⁽⁶⁾ Requires 17 inch or larger wheels

⁽⁷⁾ Sometimes, toolkit relocation might be necessary for good fit or minor scissor surgery on some models.

⁽⁸⁾ May not be legal in all areas - consult with local authorities?

⁽⁹⁾ Bra may not fit properly when installed over aftermarket add-on or Canadian cars-CALL. Refer to page 44.

⁽¹⁰⁾ Requires professional cleaning and removal of factory glue.
